Brian,

Is this 06MC or 06MC02?

Carlene

I am planning on putting TR2B funds on the Falcon contract. I have to determine how much I have available, I would like to put 50-75 thousand on the contract.

9597616

Thanks

If you are planning to use some of your Special Account funds this year on a contract, grant or Interagency Agreement, I must request the funds into the Region. There are some funds planned that are on the SCAP 4 we pulled from CERCLIS in October. I will request these. However, if you have thought of other things that you need to plan for, please e-mail me with the name of the site, the type of Special Account (TR2, TR2B or TR2A), if the funds will be put on a contract, grant or IA, so I can get the funds in the correct budget object category.

Please respond to me by noon Feb. 20th so I can get a request turned in next week. Thanks.
